Harvard Medical School's Charting the Future of Primary Care

Transforming primary care and health care systems to meet 21st century societal needs and patient expectations will require bold vision and unprecedented execution. Managing change, bending the cost curve, and caring for an aging population are among the many pressing demands on practices and systems that demand radically new approaches to teamwork, culture, financing, and use of information technology.

In this program, you will join in discussions with leaders from around the world who are reinventing their approach to primary care. You will have the opportunity to share and develop a framework for transforming your own practices. And you will create relationships with others on the same journey, so that once the meeting ends, you can continue to share your experience and learnings. Join us and discover better ways to deliver on the promise of primary care.

Offering 23.50 AMA PRA Category 1 Credits™

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Harvard Medical School designates this live activity for a maximum of 23.50 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Connect with the Center via LinkedIn, Facebook, YouTube, and Twitter.
